How ya doin wes?

Thanks a lot for sending issue #6. I think your skate zine is real good. I dont care what my parents say. I really got to commend you skaters for sticking ~~out~~ out the winter in the frosty zone.

Down here in Jersey we get so much rain and humid weather that it cuts down on a lot of skatettime and does a job on a ramps surface. I just built a small halfpipe. Its 5' high, 16' wide with 12' of flat. Platforms on both sides and PVC coping. Small but rippable and great to learn moves on. I built the ramp mostly on my own. Every once in awhile someone would drop by to drive a nail in so they could say they helped build it. I dont care if no one really helped me build it, but the least they could do is help me skate it. Skate tough and be good Wes. Ill keep in touch. RICH BEATTIE, BAYVILLE, NJ.

Wes, Del Mar is getting to happen again. Its gonna be so hot!! Tony Hawk is SHREDDIN!

Got your rag thanx. When I get THE SHREDDER done it will be well with the weight or wait.

The next TWS is going to simply blaze! I cant wait. So the weather there is lame eh, bummer. Move to Cal. No really its lame out here or rather the skaters are. Keep in touch.

your pal in cal "RIDGE" CARDIFF, CA.

LOCAL CHAOS,

Skating in Virginia Beach has undergone a major change. A while back when the skateparks closed skating became a little dead in the area untill the ramps started showing up. Now to see a skater is a very common sight. Contest are being held and more skate rags are being formed. To find out more about the skate scene here in V.B. Write and send stamps to these mags.

Dear LOCAL CHAOS,

The scene here is pretty good with sessions everyday, on one of the 2 halfpipes in Ocean-Springs. Lots of little kids are buying boards and getting into it. I hope rags like yours flourish because I think rags are more rad than the 2 big MAGS, although they're hot too.

There are about 8 hardcore locals in O.S. and we are progressing everyday. Some of the tricks I'm trying-are-to learn are THRUSTERS and SWEEPERS. thanks, RANDY McDANNALD OCEANSPRINGS, MS.

WES, whatcha been up to in A2? The very day after you came here the banks were skatable. Weve been rippin the ones by my house and the one with the hill goin into it. (no bust yet) plus streets and our ramp daily. We put PVC coping and a platform on one side and another vert extension next to the one already on it. Ive learned layback air, front and backside grinds, not to mention higher airs on our ramp. I skated Dennis's ramp with him Monte and greg. Also skated gregs ramp (big and tiring) and the bank in E. Lansing. Dennis and Greg plan to build a new ramp: 9' high, 12' wide, 3' canyon should RIP! You guys should make another trip here so we can skate the ramp and banks. We can skate all day and night if we want cuz the Wendys banks are lit! OH YEA, we moved the ramp outdoors for a couple of days IT was cool, but it rained so we put it back in. Well write back and let me know whassup. RIP CHRIS IDE GRAND RAPIDS, MICH.

FLORIDA SKATE SCENE REPORT

by LARA DOWLING and CURTIS BLANZENSKI

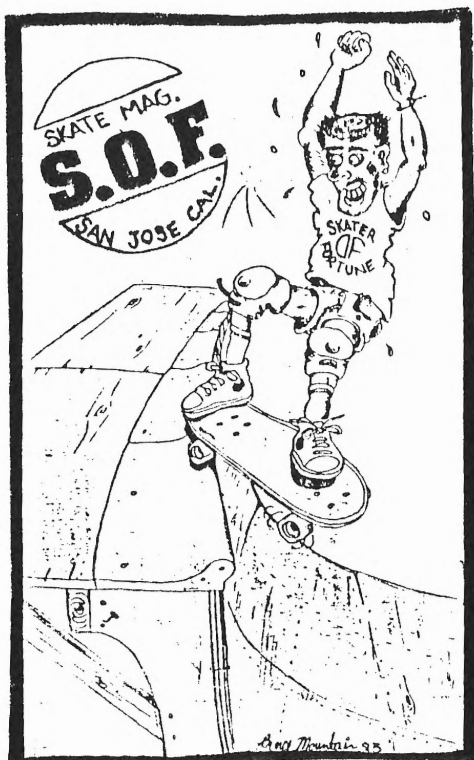

The skate scene here is growing. More ramps are being shredded daily. But there are no skate parks in the local area. There is KONA in Jacksonville but that is way the hell across the state from here. The terrain isnt all bad though. There are some killer ramps around here and a fasion mall to rip. Good streets and curbs, banks for freestyle. Some of the local thrashers are.. LARA DOWLING, CURTIS BLANZENSKI, DONNIE HIEST, LISA WILLIAMS, DAVID STAFF, TRE MOORE, BILL PYNES, WESLEY, DAVE SCHYBERG, TERRI, ARIC, GILBERT, and ROBBY.

KEEP SHREDDING..... and "THE TWINS".

Q. Why is everyone taking this guys picture?

SKATEBOARD SONG

I'VE KEPT UP SKATEBOARDING

BY JERM

I HOPE MY SONG WILL RELATE.
THE FEELINGS OF THOSE WHO SKATE

WE SKATE EVERYWHERE THE PEOPLE

WE NEVER WALK ON OUR FEET,
WE NEVER DRIVE DOWN THE STREET.
WE DO IT OUR WAY AND IT'S REAL NEAT.
